matt | Plinth K184
Lined in onyx black,
plinth height 50 mm

DESCRIPTION

Linear and elegant: the wooden front with vertical grooves reveals the genuine charm of the kitchen. When the light falls on them, the vertical grooves really stand out. The fine texture gives the handleless, uniform front an almost pictorial appearance, reminiscent of the underlying Bauhaus influence.

The generous, all-round Systemo worktop in marble Dolomiti effect ceramic adds a striking touch. The same finish is used in the recesses, as well as on the sociable kitchen island.

The appliance cabinet with its built-in wine cooler acts as a technology hub and elegantly showcases prized wine collections. Discreet, open storage options allow you to keep your kitchen utensils close at hand.

This convivial kitchen leaves plenty of room for work and leisure, bringing modern wood kitchen design and materials to a whole new level.
